SUBJECT: NIE 11-4-82, The Soviet Challenge  
to US Security Interests

REMARKS:

I am forwarding this Concept Paper and Terms of Reference to each DDS&T office because the broad nature of the Soviet challenge should be of concern to all.

There are some sections, such as those dealing with terrorism and covert action, that should be of interest to individual offices.

If you have any specific inputs or comments on this NIE, either let me know or contact the Assistant NIO directly.
